

HOMEMADE "SHOUT" STAIN REMOVER

Make sure to give it a good shake BEFORE use each time.

2/3 cups Dawn Dishwashing Liquid

2/3 cups ammonia

6 Tbsp baking soda

2 cups warm water

Mix everything together and pour into a spray bottle. You can get the empty bottles at Walmart for about a dollar.

When you get ready to use it each time, give it a good shake. Spray on stain and let soak for a few minutes. For tougher stains, rub the fabric together for a minute as well. Launder as usual.
