January 2016 NOTE: *Out of the blue, I received this PM. [Before I continue the rest of this conversation, let me explain the background.] I am Donna Grace. I received this Facebook PM from Vicki – and am reproducing it here in whole - not changed or edited – to indicate to other people that I experienced Vicki to be lacking in common sense and good character. My experiences with Ms Henderson led me to believe other transporters might be more honest, or, embroil themselves in less drama than Ms Henderson chooses to. When I received this PM on Facebook, I had not heard from, nor spoken to her in a long time (months; maybe a year). What I have copied and pasted here, is the actual PM, from the beginning to the end, nothing left out, and nothing falsified. You can decide from this PM what kind of lady Vicki Henderson really is.*

What she was referring to in her PM, is, what I related on my webpage, www.BuckingV.com/trooper.htm, where I named Vicki as being one supporter for the fellow woman transporter, Carrie Freeland, DBA Curly Horse Express, who I have proven beyond a shadow of a doubt in public and in court, stole a fancy gelding from me in late 2014.

Now, you have the background. Here is the rest of the PM I received from Vicki that day, so you can draw your own conclusions. [Her threats against me with legal action were just that. In no way was I worried about it – I had been careful to only speak proven truth about this incident, only to warn other possible targets, and I fully versed myself with the definition of libel]. I knew she was trying to scare me. I never heard from her or “her lawyer,” since then.

Libel is written untruth. This is written truth. Not libel [or slander]. Not against you anyway - you are just another victim.

If I slandered or libeled, I would worry. Since I am honest, I have nothing to fear.
